For 34 years, it has been Dr. Carrick's personal goal to provide his patients with the best possible care by building strong, trusting relationships. He spends extra time to realize a shared vision of excellence as well as provide a better quality of life for those dissatisfied with their smile.

Dr. Carrick's revolutionary concept of TOTAL DENTISTRY ensures a true, one-stop dental experience. While he specializes in full mouth restorations, he is fully certified and remains an industry leader in implants, endodontics, secure dentures, and cosmetic dentistry. He also provides the popular "oral sedation dentistry." In addition to Dr. Carrick's impressive specialized services you may also receive general dental procedures and dental cleanings.

Dr. Carrick teaches as an adjunct professor at several national and international universities. He also routinely writes articles, which are published in various dental journals. His qualifications, passion for his patients, and dedication to the concept of TOTAL DENTISTRY make him one-of-a-kind. ■
