A Licensed, Free-Standing  
Emergency Medical Care Facility

When an emergency strikes getting expert care, quickly, is the first priority. Time is of the essence. You rush to the nearest emergency room, only to sit and wait. And wait. It could be hours before you see a physician. In some instances, your condition can worsen while you wait.

This is a common, and frustrating, experience shared by many emergency room visitors. Fortunately there is now a better way to get expert emergency care, close to home, as soon as you need it.

Texas Emergency Care Center is a licensed, free-standing emergency room that provides all the same services as a hospital-based emergency room but with minimal wait times, in a comfortable environment that's close to home. In fact, wait times at Texas Emergency Care Center average less than 20 minutes. And just like

a hospital ER, Texas Emergency Care Center is open 24 hours a day, seven days a week, 365 days a year.

Equipped with the most up-to-date medical equipment including CT Scan, ultra sound, X-Ray and heart monitoring equipment, the specialists at Texas Emergency Care Center can treat everything from chest pain to broken bones. The physicians at Texas Emergency Care Center are experts. All physicians on staff are board certified or board eligible in emergency medicine and nurses are all specially trained in emergency medicine. The team coordinates care with patient's regular physicians, arranges hospital admittance if needed, and personally follows-up with patients after their emergency room visit.
