

# SCHLUMBERGER OILFIELD SERVICES

## INVESTING IN TECHNOLOGY FOR THE FUTURE

include U.S. corporate offices, the North American management team, operation and support services and key technology centers.

### KEY TECHNOLOGY CENTERS

The 200-acre Sugar Land campus houses several hundred employees, and Schlumberger also has offices and facilities throughout the Houston area, including five of the more than 25 global technology centers, which develop and manufacture Schlumberger proprietary products and solutions. A recent merger with Smith International has expanded Schlumberger's key services and products to include drill bits, drilling tools, remediation services and drilling fluids. The combination of both companies' technologies serves as a catalyst for delivering more efficient and effective drilling services while reducing risk and optimizing drilling performance and well productivity for customers.

### SUPPORTING HOUSTON AND THE INDUSTRY

Schlumberger maintains connections to the oil and gas industry with involvement in technical and business initiatives as well as charitable efforts. A corporate member of business societies—American Petroleum Institute and the Independent Petroleum Association of America (IPAA)—and professional societies—Society of Petroleum Engineers and American Association of Petroleum Geologists—Schlumberger has representatives actively helping drive and address oil and gas industry issues. Schlumberger also supports industry charities, such as Offshore Energy Center and Spindletop International as well as the Shell Houston Open and Junior Achievement.

### COMMUNITY AFFAIRS

Schlumberger community affairs initiatives always have been part of our culture. Houston efforts are employee-driven and -identified areas of concern: education, wellness and environmental stewardship.

## Schlumberger

300 Schlumberger Drive  
Sugar Land, Texas 77478

[www.slb.com](http://www.slb.com)

**S**chlumberger is the world's leading oilfield services company, supplying technology, integrated project management and information solutions to customers in the oil and gas industry worldwide. Schlumberger boasts a diverse, global workforce of 110,000 employees with 140 nationalities dedicated to delivering innovative solutions that improve production, increase reserves and reduce risk for international oil and gas customers.

Schlumberger has been a vital part of Houston since 1934 when company founder Conrad Schlumberger first came to Texas to establish North American operations for the company, founded in Paris in 1927. Greater Houston is now home to approximately 9,500 Schlumberger employees. Houston-based operations

- Engineering Week, CSTEM Robotics Competition and IPAA's Petroleum Academy are initiatives focusing on science, technology, engineering and mathematics for students in Grades K–12 supported in partnership with local energy companies and universities.
- For wellness, employees support the Derricks & Diamonds charity softball tournament for Texas Children's Hospital Charity Care Program and Cancer Center, MS 150, American Heart Association's Heart Walk, Susan G. Komen Race for the Cure, and Juvenile Diabetes Research Foundation's Walk to Cure Diabetes.
- Environmental efforts include partnerships with the Nature Conservancy and the Houston Arboretum and Nature Center to support efforts and events in Houston. ■
