Since 1967, John Daugherty, Realtors has been #1 in home sales in the Houston area's most sought-after neighborhoods and communities. Our leadership has been built and sustained through commitment to serving the best interests of our buyers and sellers and our sales associates' unrivaled knowledge of the city's preferred residential areas.

Success can be measured in many ways. We are most proud of how often past clients return to us time and again and how frequently they recommend our company to others. The continued success of our Realtors and support staff is also a matter of pride. Finally, we count our sales record, which has grown steadily since our founding and has totaled over \$1 billion in a single year.

John Daugherty, Realtors invites you to contact us, whether you are ready to buy or sell a Houston-area

address or would like to explore properties nationally or worldwide through our exclusive memberships in the Leading Estates of the World and the Board of Regents and our affiliation with Leading Real Estate Companies of the World and Luxury Portfolio.com, the leading relocation and corporate transfer network.
