**N**orton Ditto first opened its doors on Main Street in Downtown Houston in 1908. Through the windows of the store, Norton Ditto has watched Houston grow from a small Western town to one of the world's largest and finest cities and is proud to have been a privately owned and operated business for more than 100 years.

During these incredible times, Norton Ditto has had the honor to dress Houston's leading residents, ranging from U.S. presidents, senators and governors to entrepreneurs and corporate leaders; however, some of the proudest moments have been advising young business and professional gentlemen in developing their personal wardrobes.

Custom bespoke clothing has been a major part of Norton Ditto's legacy since the very beginning. Custom suits, sport coats, trousers and shirts remain an important and large part of the business. Master tailors take the time to precisely record clients' exact measurements, which results in an exquisite garment.

In Houston, Norton Ditto is located on West Alabama at Kirby Drive as well as in The Woodlands in the beautiful Market Street shopping center. The West Alabama location now offers an impressive big-and-tall department that carries big-and-tall suits, sport coats, trousers, dress shirts and extra-long neckwear.

Norton Ditto also offers the largest selection of quality men's shoes in the city with brands like Alden, Gravati, Santoni, Dogen, Michael Toschi and OluKai. For bespoke footwear, Gravati, considered one of the finest Italian shoes, offers handmade shoes with custom touches of your choosing.

The stores are filled with quality merchandise that satisfies both the classic customer and the gentleman with an appreciation for European design. Enjoy great brands, such as Canali, Ravazzolo, Zanella, Oxford Clothes, Hickey-Freeman, Sand, Robert Talbott, Luciano Barbera, Dolcenera, Robert Graham, H. Freeman & Son, Jack Victor, Peter Millar, Southern Tide, Vineyard Vines, Ralph Lauren Black Label, Eton, Scott Barber, Remy, 34 Heritage jeans, Alberto pants and Ballin. ■
