

Dedicated to crossing new frontiers in the markets it serves, Oil States Industries, Inc. is a globally recognized company with manufacturing, service and sales locations in 12 countries and more than 2,600 employees. For more than 70 years, the company has maintained a reputation as a key source of innovative products and services for the global oil and gas industry as well as marine, defense and other industrial applications.

Oil States demonstrates its commitment to excellence with rigorous and exacting standards for material testing and production. Oil States continually pioneers innovative products and solutions by applying its technologies across industry boundaries to meet customer needs. The result has been numerous patents and product standards and a long list of first-of-their-kind technologies that expand the limits of their product applications.

**TRUSTED SOURCE OF INNOVATION**

- Today's industry-standard method for installing and leveling fixed platforms was invented by Oil States.
- Oil States designed the first non-rotating, snap-on connections for TLP tethers, conductor casings, risers and subsea pipelines.
- Transforming the offshore petroleum industry, Oil States' breakthrough FlexJoint® technology offered a frictionless, maintenance-free alternative to the ball joint.
- Oil States products were used for the first earthquake seismic bearing in the United States and for the creation of dock hinges for the Alyeska terminal.
- The world's first steel catenary riser for a floating production system in Brazil was engineered, constructed and installed by Oil States.
- Oil States was the prime contractor for the world's first titanium drilling riser.

## One Source... Diversified Solutions

**Oil States has always been a source of innovation.**

We know there's always a way for our customers to operate more efficiently, safely, or productively - and we're not satisfied until we build it. We help our customers push the frontiers in energy and other industrial markets, finding new solutions and then adapting them across applications. Today, you'll find us in every offshore producing area, with manufacturing and sales facilities in the Americas, Europe, Africa, Asia and Far East. We're one company with an abiding inventive spirit taking technology where it's never been before.

IMAGINE HOUSTON

VOLUME SIX

I'm pleased to bring you this closer look at Oil States - a global innovator serving the oil and gas, marine, defense and other industrial markets. Houston is home to our pipeline and subsea equipment manufacturing group and its 500 employees. We are glad to be a part of Houston's leadership in the energy industry and its thriving business community.

Charles Moses
