

TAM INTERNATIONAL

WHO WE ARE

TAM International, Inc., is an independent oil-field services company. TAM provides solutions using inflatable packers, swellable packers and associated downhole products and services to the oil and gas industry.

WHERE WE ARE

TAM is headquartered in Houston and has regional offices in Aberdeen, Scotland; Perth, Australia; Calgary, Canada; Bogotá, Colombia; and Dubai, United Arab Emirates. TAM products and services are available globally from offices in North America, Europe, the Middle East, Latin America, Asia Pacific, Africa and Russia.

WHAT WE DO

For 45 years, TAM has set standards in inflatable packers, and more recently swellable packers, and offers efficient and economical options for conventional interventions.

TAM maintains more than 50 support locations worldwide with a focus on defining and implementing solutions for drilling and completions, well intervention, unconventional resources and reservoir optimization. Inflatable and swellable packers offer highly flexible tool systems that are effective in a broad range of applications in a wide variety of well constructions, especially when conventional packers and operations are ineffective. These include the following:

- Cased Hole
- Open Hole
- Thru-Tubing
- Vertical
- Horizontal
- Multilateral

Product flexibility also allows conveyance of tool strings into wells using a variety of methods, such as the following:

- Slickline
- Electric Line
- Coiled Tubing
- Drill Pipe
- Tubing

CORPORATE STRUCTURE AND COMPANY HISTORY

TAM is a privately held company with more than 400 employees. It was founded in 1968 in Houston, Texas, as TAM Products, Inc. The current owners purchased it in 1972, renamed it TAM International, Inc., and began a systematic expansion of its products and services.

TAM SOLUTIONS
PACKER PERFORMANCE TO THE EXTREME

TAM EPIC™ Solutions:
For sensitive, high-risk applications, we work hard so you can rest easy.

Deeper depths. Longer laterals. Tougher regulations. With 45 years of packer expertise, TAM delivers proven reliability in highly sensitive areas – onshore and offshore. Eliminate gas migration and improve cement integrity by placing a TAM Casing Annulus Packer above a gas zone. The TAM metal-to-metal seal cementing Port Collar enables 2nd stage cementing to be performed and assures casing integrity. Reduce risk and improve safety with comprehensive, time-tested solutions from the gas-migration experts.
