(281) 292-2450  
www.emerus.com

**E**merus is a nationally recognized, innovative leader in the delivery of inpatient, surgical and diagnostic medical health care. Specializing in the identification, development and management of improved-access medical facilities, Emerus provides cost-effective, scalable growth opportunities to large-scale, national health care systems throughout the United States.

By providing operationally efficient facilities and focused alignment with current health care trends, Emerus's community-based hospitals prioritize limited inpatient stays, efficient emergency rooms and cost-effective pricing in a smaller campus setting. Based in The Woodlands, Texas, Emerus has more than 1,600 employees, with expert concentrations in more than 20 different fields throughout the medical industry.

**MICRO HOSPITALS: THE NEW APPROACH TO HEALTH CARE**

Emerus's innovative licensed micro-hospital model provides access to exceptional clinical quality without the inconvenience posed by traditional hospitals. The facilities are in your neighborhood, substantially reducing drive times and minimizing patient anxiety. With easy-access parking and streamlined in-take procedures, patients are admitted and seen by hospital physicians within minutes.

In addition, Emerus meets or exceeds the standards set forth by the National Integrated Accreditation for Healthcare Organizations (NIAHO), pursuant to the authority granted to Det Norske Veritas (DNV) by the U.S. Department of Health and Human Services.

**SURGICAL SERVICES**

Emerus offers high-quality and safe elective, nonelective and emergent surgical care based on the community needs and its partnered health system's strategic plan. Emerus's joint venture partners are dedicated to providing the highest quality of patient care, in part because they are invested in the facilities and service model. Emerus provides the framework and support they require for peak performance. This is the Emerus Advantage.

**IN-PATIENT SERVICES**

Patients are tended to and monitored closely by experienced and empathetic nursing staff and physicians. Additional in-patient benefits include the following:

- Around-the-clock compassionate care
- Low nurse-to-patient ratios (as low as 1:1)
- Comfortable waiting area for family and visitors
- Private care available
- 24-hour family visitation
- Hospice care and services
