Percheron offers its specialized expertise in land, right-of-way, surveying and environmental services through its three business units—Energy, Field Services and Survey—with cutting-edge technology, exceptional client service and timely and efficient project management. Forged from the 2012 merger of Mason Dixon Energy, OGM Land, Percheron Acquisitions and Percheron Surveying, Percheron LLC is the first nationwide integrated land services provider.

OUR PEOPLE

Headquartered in Houston, Texas, with regional offices strategically placed throughout the nation, the Percheron network of highly skilled professionals helps connect clients with licensed, certified and reliable industry experts who handle projects professionally and go the extra mile to serve them as a priority.

OUR PROCESSES

Through Percheron's Project Management Office (PMO), the highest level of quality control is monitored on every project. Percheron ensures delivery of the most streamlined, efficient and reliable results every time. Emphasizing accountability, transparency, consistency, efficiency and reliability, the PMO keeps clients' fingers on the pulse of their projects.

OUR TECHNOLOGY

Percheron's field and back-office technologies provide the resources to ensure accuracy and total project assurance. Through NSite Technology, Percheron offers a cutting-edge, web-based GIS reporting tool. These web-based tools offer an easily accessible, fully integrated business intelligence resource that gives you dashboard-delivered information throughout all phases of your projects.

When it comes to exploration and production land management, Percheron Energy's experienced and dedicated professionals keep projects on track and keep delays, surprises and worry out of the process. Our professionals are members of the American Association of Professional Landmen (AAPL) and provide attention to detail that is unmatched in the industry.

Percheron Field Services industry-certified experts understand pipeline, electric transmission and public project right-of-way needs and deliver consistent results. Percheron's right-of-way experts have a vast amount of experience and maintain heavy involvement in the International Right of Way Association (IRWA).

Percheron Survey maintains accuracy, consistency and reliable results with its licensed, vastly knowledgeable experts who work to understand clients' specific business and project needs. Each project's demands are met consistently with extensive quality assurance processes and the industry's leading technology. ■
