OUR COMPANY

Drew Marine is a global leader in providing technical and safety solutions to the Marine and Offshore industries. In 2013, Alexander Ryan Marine & Safety was acquired to strengthen and expand our position in serving the Offshore community. Our expanded capabilities include personal protection, lifesaving and firefighting equipment, life raft systems and survival crafts, refurbishment and technical field services as well as engineered products to vessels in the oil and gas markets.

OUR CUSTOMERS

Our longstanding customer relationships are based on the three most important words that define Drew Marine and Alexander Ryan Marine and Safety - Reliability. Performance. Compliance. This is what our

customers have come to expect from us day in and day out. Today, via our expanded network of committed professionals, we are delivering more products and services to our customers in more places than ever before in our history. Drew Marine's established global supply chain allows us to meet our customers' requirements with products and services where ever they are required. We strive to earn our customers' business and loyalty in everything we do.

GROWTH

Drew Marine will continue to invest in improving our deliverables to the Offshore and Maritime industries. As the demands of our customers change, Drew Marine is committed to continuous improvement and growth to meet on-going challenges. To learn more about our capabilities visit www.drew-marine.com. ■
