**R APID RESPONSE. EXPERT CARE.™**  
When you need immediate medical attention you can either sit for hours in a hospital emergency room while your condition possibly worsens, or see a physician Board Certified in Emergency Medicine in just minutes at a convenient location.

Texas Emergency Care Center is a licensed free-standing Emergency Room open 24 hours a day, seven days a week, 365 days a year. We provide all the same services as traditional emergency rooms; we're just not attached physically to a hospital. Our facilities are equipped with the latest in medical technologies and testing capabilities to treat every emergency need in an inviting atmosphere with minimal wait times.

#### EXPERTS IN EMERGENCY MEDICINE

All physicians at Texas Emergency Care Center are Board Certified in Emergency Medicine. This means

when you visit one of our locations, you'll receive the highest-level of care and personalized attention from a team of emergency care specialists. Our physicians will work in collaboration with your primary care doctors to ensure they are informed about your condition.

#### OUR PHILOSOPHY OF CARE

Our mission is to treat urgent and emergent medical conditions, while allowing patients to avoid the typical inconveniences and adverse interactions of visiting a hospital-based Emergency Room. Our philosophy of care is to exceed the standard of emergency care and provide patients with prompt, personalized service in a friendly environment.

*With average wait times of less than 20 minutes, Texas Emergency Care Center offers 24-hour emergency care that's close to home. For more information, visit [www.txercare.com](http://www.txercare.com).* ■
