Walk through The Arrangement showroom and it's truly an amazing adventure. For 20 years, The Arrangement has stood above the rest as it showcases refined, rustic and inherently unique furniture and accessories crafted by artisans from around the world. Offering its clientele an opportunity to shop for one-of-a-kind, elegant pieces rich in native western heritage, The Arrangement is changing what people think of western furniture by increasing the selection, offering eclectic designs and continuously changing what is on the showroom floor.

The Arrangement searches the world for its unique blend of elegantly rustic furniture. The Arrangement expertly combines its distressed, handcrafted case goods with sumptuous leather and upholstery to create classic Western interiors that are perfect for a dream ranch or mountain home.

The Best of the New West encompasses a variety of styles, offering something for everyone, whether it's the Tuscan-inspired Villa Sienna, the Victorian-style Cattle Baron line, the extremely popular Elegant Rustic collection or the sleek Mountain Modern. In addition to rustic and Western pieces, The Arrangement offers looks that accommodate many more styles, such as Spanish Colonial and classic Southwest.

With locations in both Dallas and Houston and more than 60,000 feet of showroom and warehouse space, The Arrangement offers everything from sofas, beds and tables for every occasion to rugs, lighting and one-of-a-kind accessories. The Arrangement and its Design Team are ready to help you with your selection and brilliantly handle any project, from a single room to a full homestead, a loft or office suite, to create a place so outstanding you definitely will have a story to tell. ■
