An exclusive private club and resort-style community, **Bluejack National** sits on 755 acres of undulating countryside 45 minutes northwest of Houston in Montgomery, Texas. Since opening in November 2015, Bluejack has welcomed members and residents to enjoy exceptional family experiences with an elegant yet laidback lifestyle. The first-class amenities, including the only Tiger Woods-designed golf course in the United States, make Bluejack Houston's premier luxury family resort.

The golf experience at Bluejack is complemented by incredibly thoughtful family amenities and resort-style programming. Founded on classic and traditional principles, the generational club and community preserves life's most valued commodity – time.

A family favorite is The Fort – the ultimate recreational space where residents and members will enjoy resort-style swimming pools, a lazy river, a tree house, zip lines, a bowling alley, a movie theater, sport courts, a football field, a mini “Fenway Park,” and dining options. The Blake Fish Camp provides the thrill of catching trophy bass from the stocked ponds, and the community's 35 acres of lakes and seven miles of beautiful

hiking, biking and running trails offer ample outdoor recreation. Additionally, the private resort presents the spa and wellness center, and event spaces inside and out for those touchstone occasions and celebrations.

Bluejack includes 400 private residences. These are offered in a variety of styles enabling buyers to select the type of residence that best suits their needs — from short-term visits to year-round living. A graceful blend of custom home sites and built product gives residents an array of options to accommodate their lifestyle.

As Golf Inc.'s Development of the Year (2015), Bluejack's challenging yet accessible 18-hole golf course accentuates the beauty and drama of the area's natural terrain. By design, the golf course tests PGA professionals and at the same time appeals to our next generation. While the 18-hole course is a critical favorite, the unique and family-friendly short course, The Playgrounds (also designed by Woods), feature holes ranging from 100-yards to 30-yards. The short course experience stretches into the evening with lights at night.

In addition to the range of real estate offerings, Bluejack offers national, corporate, golf and social memberships available upon invitation. ■
